

# DRiV New Product Line Introductions

US / Canada (November 2024)

# Our Strategy is to Expand to a Full Bumper-to Bumper Product Portfolio to Deliver More Value to Our Partners

## Light Vehicle

## Commercial Vehicle

# ALL-NEW PRODUCT LINES LAUNCHING

## Light Vehicle

### Wagner Sensors

Wagner sensors are designed to match OE fit, form, function, providing performance you can count on.

- Crank/cam shaft
- Oxygen

Offering to expand in 2025

### MOOG CV Axles

MOOG constant velocity (CV) axles are backed by premium materials and rigorous testing to deliver reliable performance

### Wagner Lighting

LED Lighting  
Coming Nov 2024

Wagner Lighting LED bulbs are designed reliable, durable performance. Offered in:

- Forward Lighting
- Sealed Beam
- Minis
- Off-Road

### Wagner Calipers

Coming Early 2025

Wagner Calipers deliver reliable, like-new performance, with 100% newly manufactured components and designed to match OE specification.

### Monroe Air Suspension

Coming Q1 2025

Monroe air suspension is the latest product expansion from Monroe, a brand with a rich legacy of premium ride control solutions:

- Air springs
- Air struts
- Air shocks

# ALL-NEW PRODUCT LINES LAUNCHING

## Commercial Vehicle

### Monroe HD Chassis

#### Drag Links & Tie Rods

#### Application Engineered For the Long Haul

Keep over-the-road vehicles going strong mile after mile. The precision engineering and advanced technology built into Monroe products provide reliable steering and suspension solutions for Class 6-8 vehicles.

### FP Diesel Turbochargers

#### Coming Soon!

#### Tough Parts for a Tough World

Restores airflow to help restore combustion and engine performance. FP Diesel Turbochargers are made with 100% new components, feature a direct-fit bolt-on design for easy replacement and includes a gasket kit for a complete repair.

# All-New Wagner Sensors Now Available

Wagner sensors are designed to match OE fit, form, function, providing performance you can count on. Offering to expand in 2025.

## CAMSHAFT & CRANKSHAFT POSITION SENSORS

### MAINTAINS ENGINE PERFORMANCE

Meet OE signal performance through precise digital measurement of rotational speeds to ensure optimal engine performance

### HANDLES EXTREME TEMPERATURES

Thermal shock-tested to ensure reliability in all conditions from -40°F to 284°F

### OE-STYLE REPLACEMENT

Meet application requirements for fit, form and function

### RESISTS CORROSION

Protective coating on installation hole reduces rust while salt spray testing ensures it's ready for the elements

### SUPERIOR SEAL

O-rings designed to resist high temperatures to deliver a superior seal in the engine

## OXYGEN SENSORS

### BUILT TO LAST

Application-specific, four-layer chip design reduces cracking due to thermal expansion for longer service life

### EASY TO INSTALL

Connector is easy to install; threads with anti-seize aid in future service

### OPTIMAL ENGINE PERFORMANCE

Correct fuel control helps reduce emissions, maintain fuel economy and contributes to optimal engine performance

### OE-STYLE REPLACEMENT

Meets application requirements for fit, form and function

# Introducing MOOG Constant Velocity (CV) Axles

MOOG constant velocity (CV) axles are backed by premium materials and rigorous testing to deliver reliable performance

Caps on all MOOG flanged CV axles are staked whereas competitors use a zip-tie to hold the cap.

**Competitor Result:** A cap that separates during shipping/handling, causing loss of grease and creating a mess.

# We're Expanded Our Wagner Lighting Line

Forward Lighting, Miniature Bulbs,  
Sealed Beams

LED Lighting Expansion Coming  
November 2024

# Wagner Calipers

With 100% newly manufactured components and designed to match OE specification, Wagner calipers help restore like-new braking performance across a full range of vehicle types and sizes.

## WE EARN OUR STRIPES WITH RELIABLE, LIKE-NEW PERFORMANCE

### OE-STYLE DESIGN

All components are engineered to match OE requirements

### SEALANT GREASE

Provides proper protection against friction between metal and rubber components

### CORROSION RESISTANCE

Aluminum or plated castings deliver reliable corrosion resistance

Cast iron housings and brackets feature an application-specific zinc coating which aids in corrosion resistance

### 100% NEWLY MANUFACTURED COMPONENTS

Including new, OE-matched, pistons, hardware, boots and seals

## AVAILABLE COVERAGE FOR A WIDE RANGE OF

CARS

CUV/SUVS

TRUCKS

DESIGNED TO  
MATCH OE SPECS

100% NEWLY  
MANUFACTURED COMPONENTS

600+ SKUS  
AVAILABLE

# Monroe Air Suspension Coming Soon

Monroe air suspension is the latest product expansion from Monroe, a brand with a rich legacy of premium ride control solutions:

Air springs

Air struts

Air shocks

# Monroe Heavy Duty Chassis

## All-New Drag Links & Tie Rods

### APPLICATION ENGINEERED FOR THE LONG HAUL

Monroe heavy duty chassis parts keep over-the-road vehicles going strong mile after mile. The precision engineering and advanced technology built into Monroe products provide reliable steering and suspension solutions for Class 6-8 vehicles.

# New Turbochargers for Commercial Vehicles

## Coming Soon

- **100% NEW COMPONENTS** – Brand new turbo with all-new components
- **DESIGN VALIDATED** – Components built to tolerances for reliability you can count on
- **EVERYTHING FOR THE REPAIR** – Includes gasket kit for a complete repair
- **OE-STYLE REPLACEMENT** – Meets application requirements for fit, form and function
- **DIRECT-FIT DESIGN** – Direct-fit bolt-on replacement for easy installation
- **RESTORES PERFORMANCE** – Optimizes airflow to help restore combustion and engine performance
